Summary

I am a 4.0 GPA Computer Science graduate student at Rivier University seeking a software engineer pre graduation internship opportunity for summer 2023.

My core areas of interest include Python as a language, particularly Machine Learning as a tool for innovation, AI technology, and algorithm implementation.

I am a former entrepreneur from Siberia with a Master's in International Business, and now embarking on my next great challenge – software engineering.

Experience

Founder

LLC Spektr
